

Survival Of The Fittest

Robert DeLong

We're here to make some money off the property we're selling
I got guns aplenty for if anybody's yelling alright, alright, alright
Trade your school for oil or just simple education
Enough to run the country not enough to keep you thinking
Take my god if you want, if you want

Cause muscles make the difference
The children don't give a shit
The progress is your solution
but cognitive evolution points to

Survival of the fittest
If it's not brains then it's
the killers who inherit the earth

Cocaine politicians burning up the forest
If you think the world is ending soon well then just fuck it up
Take our heads out of the clouds we don't need to be looking around
for newer natural resources beyond atmospheres forces
The groove we're sexy in the sixties

But now the cold war is over
We don't need to run and cover

Survival of the fittest
If it's not brains then it's
the killers who inherit the earth
Who will inherit the earth

And if you're smart
You will get out
And if you love your friends
and teach them all the difference
between reason and reasons
Cause we're gonna die
Yeah were gonna
And were gonna die
Either way
Cos were gonna die
Yeah were gonna die
We're gonna die
Either way
Yeah we're gonna die
We're gonna die
We're gonna die
Either way
