

# Broken End Of Love

Robert Earl Keen

Line of sight, speed of sound  
Feel of flesh the long way down  
Flash of light you look around it's over  
You're OK, but I'm a mess  
It's the way it goes I guess  
I think I thought we would last forever

What am I gonna do about this  
It ain't no metamorphosis  
It's the cold and bitter broken end of love

Discontent with love's refrain  
Is something that I can't explain  
I see now I should have seen it coming  
It hit us like a hurricane  
And ripped the coast with fiery rain  
And I kept holding on in vain to nothing

What am I gonna do about this  
It ain't no metamorphosis  
It's the cold and bitter broken end of love

And I wonder if you felt this way  
From our first kiss to that last day  
And I was but a fool of trust and pleasure  
And I'll keep your love where love won't die  
So said the spider to the fly  
But dead love is the only love you treasure

What am I gonna do about this  
It ain't no metamorphosis  
It's the cold and bitter broken end of love

I'm lucky just to be alive  
It serves me right that I survive  
And live to tell the lesson that you taught me  
So you know for what it's worth  
There ain't enough love on earth  
To take away all the shame you brought me

What am I gonna do about this  
It ain't no metamorphosis  
It's the cold and bitter broken end of love (Hey now)  
What am I gonna do about this  
It ain't no metamorphosis  
It's the cold and bitter broken end of love

End of love
