

## Oh Rosie

Robert Earl Keen

I'm long past hungry, I need a bed  
I got some real wild things runnin' through my head  
Oh Rosie, don't forget me now

I've been to Tulsa, New Mexico  
Still got Tucson and Colorado left to go  
Oh Rosie, don't forget me now

Do you remember our lucky star, we gave all our wishes to  
Now I'm in Denver in this old bar  
Tryin' to do anything to hang on to you and not be blue

It's all night TV with nothin' on  
I should be goin' but I'm too far gone  
Oh Rosie, don't forget me now

There's rotten singers, lousy art  
Western swingers and my old broken heart  
Oh Rosie, don't forget me now

Do you remember our lucky star, we gave all our wishes to  
Now I'm in Denver in this old bar  
Tryin' to do anything to hang on to you and keep it true

It's a hard old highway, a long slow burn  
I think about you Rosie at every little turn  
So don't you worry, please don't cry

When we're together that old time will fly on by  
Oh Rosie, don't forget me now

Do you remember our lucky star, we gave all our wishes to  
Now I'm in Denver in this old bar  
Tryin' to do anything to hang on to you and make it through

It's a hard old highway, a long slow burn  
I think about you Rosie at every little turn  
Oh Rosie, don't forget me now
