

Top Down

Robert Earl Keen

Floatin' on a cloud, jettin' the stream
For cryin' out loud you're livin' the dream
Movin' so fast you're already gone
You got your hit movie and your number one song
You never worry, you never care
You got the top down and the wind in your hair

Well lickity-split and whoppi-ty-aye
The bigger you get, the bigger they pay
Babes in your arms takin' their turn
Good lookin' charm and money to burn
Lights, camera, action; fans on the lawn
With the top down and your sunglasses on

Hi-ooo, it's you, hi-ooo, it's true
Everything is happening, everything is new
Everybody's clappin' and it's all about you
Little ol' you

Everything is happening, everything is new
Everybody's clappin' and it's all about you

Movin' thru the, here's the private line
Meet and greet, nice to see ya, call me anytime
Your trainer helped you loose some weight on tuna fish and toas
t
Your agent and your manager are conferencing the coast
Scheduling a cover shoot on Vanity Fair
With the top down and the wind in your hair

Hi-ooo, it's you, hi-ooo, it's true
Everything is happening, everything is new
Everybody's clappin' and it's all about
Hi-ooo, it's you, hi-ooo, it's true
Everything is happening, everything is new
Everybody's clappin' and it's all about you
