

Enjoy

Robert Miles

You don't have to worry
You don't have to hurry
You just have to learn to enjoy
You don't have to make it
You don't have to take it
You just have to learn to enjoy

Enjoy what you feel
That's all that is real
Enjoy what you feel inside
If you want to live your life
Live your life in joy
Nothing to learn
Nothing to fear
Nowhere to run

'Cause you're already here
It's your reason to live...
You're only here to enjoy
Enjoy what you feel
That's all that is real
Enjoy what you feel inside
If you want to live your life
Live your life in joy

You don't have to hurt
You don't have to strive
Relax and enjoy the ride
It's the reason you're alive
Fill your heart with joy
And you can learn to love what you fear
And when fear says "run away - somewhere safe"
Say you can't - 'cause you're already here
Enjoy what you feel

That's all that is real
Enjoy what you feel inside
If you want to live your life
Live your life in joy
You don't have to worry
You don't have to hurry
You just have to learn to

Live your life in joy
You don't have to make it
You don't have to take it
You just have to learn to
Live your life in joy
