In My Dreams

Robert Miles

The Hollies Miscellaneous Here In My Dreams Starlight on my face Moonbright on the ground Fill this empty space Rest the travel-bound

After weary days Lady Luck please smile show the many ways We can go where wishes go Let's chase the shadow-child

Here in my dreams love is warm love is golden causing me to believe I have touched I have seen

Sunshine of the night dance on crystal streams All the things that wishes bring are living in my dreams
