

Casting a Spell

Robert Palmer

La-la-e la-la-e la-la-la-la-la-la-e
Oi, Maria mandou me dizer, Maria mandou me dizer
Não quero falar com você, Oi

She's just testing her wings
And if you give in to her
You'll be just another feather in her cap
She'll drop you in a flash
She's casting a spell, she's casting a spell
Well, if she's casting a spell
I can cast one as well

So I said, no no no I ain't fallin' for this
This girl is built to tease
She's only testing the efficiency of her kiss
She's casting a spell
Well, if she's casting a spell
I can cast one as well

She wants to check out how you check out on her test-bed
Will you get in her book or
Will you go right to her head
She's casting a spell
Well, if she's casting a spell
I can cast one as well

And so I cast it right back on her
Don't you know my luck
She fell under the influence
And then the thunder struck
Now we're casting a spell
We're casting a spell
You can cast one as well...
