How Much Fun

Robert Palmer

You make me feel like I don't need another Come on baby let's pull back the covers And do our best to help one another Find out how much fun we can get into life

You got me scorched where I'd forgotten there was fire You got me foxed and you know I ain't a liar Come on baby, help me try and Find out how much fun we can get into life

Sit back, relax, we've got all night Feel the groove, nice and smooth Let's get it right Got it made, since you gave, gave me the eye I know the place let's go, come on let's fly

You make me feel like I don't need another Come on baby let's pull back the covers And do our best to help one another Find out how much fun we can get into life

You got me higher than I've been since I started Couldn't want you more if I tried any harder We could fall in love with one another Find out how much fun we could get into life

We got what's what Let's make it work Feel the beat in your seat Don't make it jerk Settle down, look around, there ain't no rush There's a whole load of possibilities, Just the two of us

You make me feel like I don't need another Come on baby let's pull back the covers And do our best to help one another Find out how much fun we can get into life Find out how much fun we can get into life Find out how much fun we can get into life Find out how much fun we can get into life Find out how much fun we can get into life Find out how much fun we can get into life Find out how much fun we can get into life Find out how much fun we can get into life
