

# No Problem

Robert Palmer

I think the two of us  
Should visit paradise  
We'd be so calm inside  
I'd be your alibi  
I want to be the one  
That shares in all your dreams  
Always be there for you  
To satisfy your needs

There'd be no problem - even if you just need someone to talk to  
I'll be there to listen any time of day  
There's no problem you can't tell me about it  
Oh baby I could make you happy more than any other man  
Someone to rely on and  
Care for you

I could keep you warm  
Protect you from all harm  
I'd be right by your side  
To keep you satisfied

No problem - even if you just need someone to talk to  
I'll be there to listen any time of day  
There'd be no problem if you tell me about it  
Oh baby I could make you happy more than any other man  
Someone to rely on and  
Care for you girl

No problem  
No problem

I think the two of us  
Should visit paradise  
You'd be so calm inside  
I'd be your alibi  
You could get in my heart  
And we could take a ride  
We could go all the way  
Or just to paradise

No problem  
No problem  
No problem  
No problem
