

Nobody But You

Robert Palmer

I don't want nobody but you
I don't want nobody but you
No one else on Earth will do

You help me find my feet
You make me lose my head
You help me make ends meet
You keep me warm in bed
You're too good to believe
You make me jam and bread

I don't want nobody but you
I don't want nobody but you
No one else on Earth will do

You give me good advice
You keep me on my toes
You help me pick my ties
But I pick my own nose
You run my bubble bath
Accept when I propose

I don't want nobody but you
I don't want nobody but you
No one else on Earth will do

You charge the atmosphere
You are the sexiest
You always lend an ear
You help me get undressed
You give me room to breathe
You keep me well abreast
You help me find my feet
You make me lose my head
You never lose the beat
You keep me warm in bed
