

So Emboldened

Robert Palmer

Don't you know you justify me baby
You keep my gears in the world
Don't you know you validate me baby
Watch me take my hat off to you girl
Just in time to compliment my baby
I take my hat off to you girl

You remind me that I felt
Never so emboldened too
You remind me that I felt
Never so emboldened
Now that you won me
You still want me?
Now that you got me
You still want me too?
You put my mind to it
We can do it now

Don't you know you justify me baby
You keep my gears in the world
Don't you know you validate me baby
Watch me take my hat off to you girl
Just in time to compliment my baby
I take my hat off to you girl
