

# What Can You Bring Me

Robert Palmer

When your lovin' is gone  
And you can't carry on  
What can you bring me  
When there ain't nobody else  
And you can't help yourself  
What can you bring me  
What can you bring me

Can you bring me that happy day  
Let me know that everything is ok  
Bring it strong and bring it fast  
Bring it till the pain is in the past

What can you bring me, that'll unchain me  
What can you bring me  
What can you bring me baby  
What can you bring me

Like a man whose on that road  
Drivin' hard towards his goal  
Like I'm on my last go round  
My love life's lost and can't be found  
What can you bring me

What can you bring me

Hurry baby, don't waste time  
I need somebody, help me solve this crime  
Bring it strong and bring it fast  
Bring it till the pain is in the past

What can you bring me, that'll unchain me  
What can you bring me  
What can you bring me

What can you bring me  
What can you bring me  
What can you bring me

Help my equilibrium baby

What can you bring me  
What can you bring me  
What can you bring me

What can you bring me
