

Carry Fire

Robert Plant

I sit and wait for you
Like so many others do
Just like they do for me
Well so I do for you

I'd carry fire for you
Here in my naked hands
I'd bare my heart to you
If you will understand

I was a stranger there
Inside your promised land
That turned me inside out
And turned me upside down

I'd carry fire for you
Here in my naked hands
I'd bare my heart to you
If you will understand

Just like
Just like
Just like I scarred you
Just like
Just like
Just like I scarred you

I'm reaching out for you
Across the broken gate
I feel the gathering years
Beyond these lonely wastes

I'd carry fire for you
Here in my naked hands
I'd bare my heart to you
If you will understand

Just like
Just like
Just like I scarred you
Just like
Just like
Just like I scarred you
