## Monkey

**Robert Plant** 

Oh my my Little white lie I swear I'm gonna make it right this time It's like a radio Turning way down low Telling me things I do not know I know Tonight you will be mine Tonight the monkey dies Tonight you will be mine Tonight the monkey dies Now who's to blame We used to be the same Now you won't let me speak your name, what a shame It's a suicide Shut up and drive We're never gonna make the light but it's alright Cos tonight you will be mine Tonight the monkey dies Tonight you will be mine Tonight the monkey dies Tonight you will be mine Tonight the monkey dies Tonight you will be mine Tonight the monkey dies Oh, tonight you will be mine Tonight the monkey dies
