

Moonlight in Samosa

Robert Plant

Time and again I see you walking down the street
Over and over just like before
Once in a while you stop and say hello to me
Just like you used to before

Time and again, it's like we were in love and then
Over and over nobody keeping score
Once in a while I think you noticed when I smile
That love still lingers in my eyes

It can't go wrong, it can't go wrong
It lingers on, it lingers on

Day after day I turn it over in my mind
Dream after dream it's hard to tell you how I find
Out of the blue I'm suddenly so close to you
Despite the years that I've been gone

Will you stop, will you wait a minute please remember
Can you stop, can you just give me one minute to explain
I will not 'cause a fuss, I will not rock the boat
Believe me darling, oh, what is, what was, it's all the same
