

New World...

Robert Plant

In songs we praise a happy landing
On yet another virgin shore
Escape the booming world
Embrace the new world
I'm here to immigrant
Across the plains and over mountains
Put plight to all who came before
They're barely human
It's time to move them
And let them kneel before the sword

Ohh, ohh, ohh
Ohh, ohh, ohh

Uneducate the noble savage
The great white father's word is lore
It's such a pain then to liberate them
Your poison and the bloody sword

Ohh, ohh, ohh
Ohh, ohh, ohh

Ohh ohh, uh uh uh, ohh ohh
Ohh ohh, uh uh uh, ohh ohh
Ohh ohh, uh uh uh, ohh ohh
