## **One Love**

## **Robert Plant**

One for love - I can't resist Two for your pretty brown eyes - crazy like this

Three for the stars around my head Four for the way you smile - crazy instead That's why - oh, you're all mine

Five for the fire - the power of love Six for the glory from up above That's why - oh, that's why

It takes one heart - one love N-n-now baby, love one another One dream - one kiss Come on now baby, don't you treat me like this

Seven for songs that never change Eight for the heart of gold - nine for the name That's why - oh, all mine

One heart - just one love N-now baby, love one another One dream - one kiss Come on now baby, don't you treat me like this

That's why - oh, oh, that's why Yes that's why - oh, baby, that's why Ooh, yeah, that's why - oh, that's why It's one love, one love, one love -- One for love - I can't resist Two for your pretty brown eyes - crazy like this
