

Other Arms

Robert Plant

Lay down your arms - now baby, let me sleep at night
Lay down your arms baby - I'll make everything all right
Words you been using, hurting me so
Some day your gonna regret
Your friends are talking - guess you never know
There's not a lately one yet

Lay down your arms, baby - when the deal is done
Lay down your arms, child - used to be your only one
Weapon you're using is hurting me bad
What do you hope to achieve
I said your fighting is leaving me sad
That's not the way it should be

Find a love - find a way
Find a dream - find a way
You know that I will, yes you know

Lay down your arms - please release me, let me go
Lay down your arms, baby - now surrender to me, don't you know

Find a love - find a way
Find a dream - find a way
You know that I, you know that I
You know I will, but you know

Oh, she's gone, she's gone
I'm not a prisoner - I'm the big beret
I'm not a prisoner - I'm the big beret
I'm not a prisoner - I'm the big beret
No I'm not
Oh, oh my baby's gone
Lay down your arms
I don't know where I'm gonna find her
'Cause my baby's gone
Lay down your arms
Is she here, is she there, is she here, yes I know
Oh, I gotta find her
