

# Shine It All Around

Robert Plant

This is the land where I live  
Paint it all over golden  
Take a little sunshine spread it all around  
This is the love that I give  
These are the arms for the holding  
Turn on your love light shine it all around

Shine it all around, shine it all around  
These are the times of my life  
Bright and strong and golden  
This is the way that I choose when the deal goes down  
This is the world that I love

Painted all over troubled  
Take a little sunshine shine it all around  
End a little sign now, spread it all around now  
Hine it all around now, when the deal goes down now  
Shine it all around, Shine it all around

This is the heart of the man  
This is the heart of the matter  
Break a little bread now spread it all around  
E a little bread now, all around  
Shine it all around, shine it all around
