

Tie Dye on the Highway

Robert Plant

Tie dye on the highway - see the garlands in your hair
If you're going my way, come along
What a beautiful sky - we just had to stop and stare
See the beautiful colours fill the air

(Oh, just the messengers of peace)
Oh, do you remember - across the burning years
Sweet smell of the mystery I recall
Hang me on Miguel - a smile through all my fears
O high Olympus, touch our soul

With the messengers of peace and the company of love
All the passion and release, and love from up above
Say you will come back with me - say you will come back

Tie dye on the highway - the wheels still turn around
Dance to the mariachi - take my hand
Hope springs eternal when laughter's feeling sound
Move in the mystic wasted land

With the messenger of peace and the company of love
All the passion and release, and love from up above
(You know that it is true)
From the desert in my art, where the innocent may love
All the passions they release, and the love from up above
Say you will come back with me - say you will come back
Say you will come back with me - say you will come back
