

# Who's Running My Ranch

Robert Pollard

Who's running my ranch? Who's running my ranch?  
And if you want to, ask me that's ok  
I've been lying sleeping bad  
And if you want to, for the big spot say  
And the space came through the van  
It's running by rats

Who's running my ranch? Who's running my ranch?  
And if you want to, but the... teeth bite  
And the cats can't smell the rats  
Every advice is on but there's none on sight  
And I don't know where is at  
It's running by rats.
