

Who's Running My Ranch

Robert Pollard

Who's running my ranch? Who's running my ranch?
And if you want to, ask me that's ok
I've been lying sleeping bad
And if you want to, for the big spot say
And the space came through the van
It's running by rats

Who's running my ranch? Who's running my ranch?
And if you want to, but the... teeth bite
And the cats can't smell the rats
Every advice is on but there's none on sight
And I don't know where is at
It's running by rats.
