

# Nobody

Robert Randolph & The Family Band

As I'm looking out my window  
I could see my time  
with you is running low  
When I think about  
All that you've done  
The truth hits me  
like the morning sun  
Can't nobody-  
Can't nobody love me like you love me  
You've never left me on my own  
You are the reason  
I sing this song  
You've kept me warm  
on the coldest nights  
You helped me get  
from the dark to the light  
I'm ready to die  
While I know that you love me
