

Smile

Robert Randolph & The Family Band

Sitting here thinking about the times we shared
The love you gave so freely lets me know you care
In spite of all the things we've been through I know it was only a test
And now I wish that you were here with me to cure my loneliness
I'll just smile when I think about all the good times
I just smile when I think about all the joy you bring
When I think about how you touched my life
And how you set my spirit free
I just smile when I think about all you've done for me
I never knew before we met what love actually could do for me
And when we were together I saw how strong I could be
With all the space between us I still feel you are here
And all the love that's in my heart keeps you near
