

## Smile

**Robert Randolph & The Family Band**

Sitting here thinking about the times we shared  
The love you gave so freely lets me know you care  
In spite of all the things we've been through I know it was only a test  
And now I wish that you were here with me to cure my loneliness  
I'll just smile when I think about all the good times  
I just smile when I think about all the joy you bring  
When I think about how you touched my life  
And how you set my spirit free  
I just smile when I think about all you've done for me  
I never knew before we met what love actually could do for me  
And when we were together I saw how strong I could be  
With all the space between us I still feel you are here  
And all the love that's in my heart keeps you near
