Smile

Robert Randolph & The Family Band

Sitting here thinking about the times we shared The love you gave so freely lets me know you care In spite of all the things we've been through I know it was onl y a test And now I wish that you were here with me to cure my lonliness I'll just smile when I think about all the good times I just smile when I think about all the joy you bring When I think about how you touched my life And how you set my spirit free I just smile when I think about all you've done for me I never knew before we met what love actually could do for me And when we were together I saw how strong I could be With all the space between us I still feel you are here And all the love that's in my heart keeps you near
