

## Summertime

Roberta Flack

Summertime when will you come?  
I wanna put my light things on  
I wanna put my winter life away  
Summertime I need a sunny day

I want those peaches on the table  
Want the watermelon red  
And the warm sun crepping through the window  
To ease the outer pain

I want the sand out there to lie on  
And the sea out there to swim  
So my heart can take a holiday  
From breaking over here

Summertime when will you come?  
I wanna put my light things on  
Wanna put my winter life away  
Summertime I need a sunny day

And I wanna it dry forever  
Wanna roll those windows down  
Get the breeze back on my body  
Get my feet back on the ground

I want the sand out there to lie on  
And the sea out there to swim  
So my heart can take a holiday  
From breaking over here

Summertime when will you come?  
I wanna put my light things on  
I wanna put my winter life away  
Summertime I need a sunny day
