

# 'Till the Morning Comes

Roberta Flack

Don't, send me away  
Please let me stay, here in your arms evermore  
I, never knew love could be so good  
Never knew love before  
I just want to show you how it feels wanting your love like I do  
Let's, give it a chance, don't pass it up, let me make love to you

(Till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes

I, I need your love need it so bad don't know what I'm going to

Do  
If you should refuse me I would die, dont want to live without

You

Yes, the answer's yes, do as you will, I am at your beck and call  
Love, with your love, believe me I, I'm gonna give you my all

(Till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes

I feel so good being here with you  
I'll stay forever if you want me to  
Love will be sweet, and life will be fun  
When we're together, together as one

I made-up my mind, and you know what a made-up mind can do  
Love, be mine tonight, the time is right, let's get it on me and

You

(Till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes  
(Till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes

(Till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning

(Till the morning)  
Till the morning comes (till the morning comes, till the morning)  
Till the morning comes

(Till the morning)  
Till the morning (till the morning comes, till the morning)  
Till the morning

Till the morning
