

Watching You

Robin Gibb

Baby, baby, oh no.

Baby, I'm watching you and you watching me.
Come on, let's get together.
Have this dance with me.

Baby, I'm watching you and you watching me.
Come on, let's get together.
Have this dance with me, girl.

The party's jumping, girl;
The music's bumping yell.
The dance floor is crowded.
I got my eye on you.

I got to make my move.
Baby, I got to do it.
I'm feeling good.
I want to dance with you, girl.

The way you move your body so sweet, girl,
Calling, calling me.
I can't control myself.
Oh.

Baby, I'm watching you and you watching me.
Come on, let's get together.
Have this dance with me.

Baby, I'm watching you and you watching me.
Come on, let's get together.
Have this dance with me, girl.

I can't wait to get real close.
Baby, you got me open,
That I can be the only one all night.

I want to take my time.
I wish this can last forever
I'm in the moment
And I just can't let it go

The way you move your body so sweet, girl,
Calling me, calling me.
I can't control myself.
I want you.
Ohhhhhh

Baby, I'm watching you and you watching me.
Come on, let's get together.
Have this dance with me.

Baby, I'm watching you and you watching me.
Come on, let's get together.
Have this dance with me, girl.

I'm feeling so good with you on the floor,

So glad you're dancing with me.
I'm floating on a cloud and I can't come down.
It feels just like a dream.

Special, come on baby, let's rock the floor.
I want to get to know you move left,
Move right, it's a hot spot tonight.

Baby, I'm watching you and you watching me.
Come on, let's get together.
Have this dance with me.

Baby, I'm watching you and you watching me.
Come on, let's get together.
Have this dance with me, girl.

Oh baby, come on...
