

What I Do Best

Robin S

I, I know that you've lost your way
You need to find that somewhere you belong
You, you've been running from yesterday
You will stumble and you'll find sometimes to love come shining
through
And I will be waiting there for you

CHORUS

'Cause what I do best is love you like a woman loves her man
I can love you more than any other woman can
So just that I will pull you through and let me do the rest
'Cause loving you is what I do best

Hah oh

Time, there'll be enough time to spare
And if you let me, I can turn your world around
Time, enough, there's more than enough to share
We can climb the highest mountain, forever can begin, yeah
So open your heart and let me in

[Repeat CHORUS]

BRIDGE

The tears you've cried before had disappeared
But if they come again one night
And if the darkness hides the light
And if you have to stay and fight
You know that I'll be there

CHORUS

(What I do best) What I do best
(Love you like a woman loves her man) Love you like a woman loves her man
(I can love you more than any other woman can) I can love you more than anyone
So take this heart so strong and true and let me do the rest
'Cause loving you, loving you
'Cause loving you is what I do best
