

Fools

Robin Schulz

I just wanna hold you, hold on tight
Now I'm in a few remarks and I'm trying to save my live
Walking through the darkness
I hear the host trumpets cry
Oh I thought we'd live forever
I don't wanna say goodbye
She was the queen of hearts
So of everything that I ever thought, but I won't say
Like the drink I spilled, this is how it started
She was the brightest star, shining right above me even when she's far
I won't say
Just one more look before we're parted

Only fools go through
Jokers in the pack, shot me in the back
Only fools go through
Jokers in the pack, shot me in the back
How about that?

Red lights pulled me down
I fell in every in this part of town, without you
Like a voodoo doll, you pull me six feet under
The rains cracked my crown
A hundred whiskey bottles 'til I start to drown about you
There's no way out
I die with this hunger

Only fools go through
Jokers in the pack, shot me in the back
Only fools go through
Jokers in the pack, shot me in the back
How about that?

I just wanna hold you, hold on tight
Now I'm in a few remarks and I'm trying to save my live
Walking through the darkness
I hear the host trumpets cry
Oh I thought we'd live forever
I don't wanna say goodbye, no

Only fools go through
Jokers in the pack, shot me in the back
Only fools go through
Jokers in the pack, shot me in the back
Shot me in the back
How about that?
