

Loverman

Robin Thicke

I want to use my hands on your body,
I want to explore your rivers and your valleys.
From the top of your mountain to the depths of your sea,
I want to fuel the fire inside of me.

[Chorus:]

I'm your loverman, digging as deep as I can
I'm your loverman and I drive for. I drive for
I'm your loverman, going ask for best I can
I'm your loverman and I drive for. I drive for

I want to look in your eyes, pass the mask you hide behind
I want to know all of you, what makes you smile what makes you
blue.

You know I want to please you, take you so high.
Forget that you can't fly were just spaceships in the night.

Your ripping your clothes off of the past
Making a new path and a brand new day
Baby come with me I'll take you away

[Chorus]

Je t'aime, mi amor, je t'aime, mi amor
Je t'aime, mi amor, je t'aime, mi amor
From the garden in the Verci, to the desert in Dubai
From the top of the Braymore we can touch the sky.

[Chorus: x3]
