

If Forever

Robin Trower

If forever is without you
Let the rain fall from the sky
Let the waters close around me
Keep the sunlight from my eyes

Bitter harvest, far horizons
Never see the sun
Restless searching leading on
Searching for two lives to be as one

If forever is without you
Let the rain fall from the sky
Let the waters close around me
Keep the sunlight from my eyes

Changing seasons, indecision
Tearing us apart
As an island, no man stands
Lonely days make a lonely heart

If forever is without you
Let the rain fall from the sky
Let the waters close around me
Keep the sunlight from my eyes
