Lady Love

Robin Trower

Lady love I heard a voice and it soothed me Lady love A simple tune and it moved me Move me and sooth me Leading me home Truly for me now Lady love Lady love The man's a fool to be leaving Dreams of love Passing by like the seasons Maybe I'll wake up Oh, tell me I will And find you there waiting Lady love Lady love I need some warm and tender Nights of love Sweet and fine to remember Maybe tomorrow Your fever will find me Waiting for me now Lady love I'll find you waiting, lady love Find you there waiting, lady love I'll find you waiting, lady love

Waiting, waiting, lady love
