

Love Won't Wait Forever

Robin Trower

Love won't wait forever
Make up your mind
Love won't wait forever this time
We'd be great together
Give me a sign
Love won't wait forever this time

I don't know the lives you chose
Or where it may lead
Only hope can satisfy your need
I don't understand the pain
That pushes you on
You've been flying solo so long

Love won't wait forever
Make up your mind
Love won't wait forever this time
We'd be great together
Give me a sign
Love won't wait forever this time

Standing where the roads divide
Is fine for today
I don't wanna push you either way
I can only say so much
Your mind is your own
Take me now or make it all alone

Love won't wait forever
Make up your mind
Love won't wait forever this time
We'd be great together
Give me a sign
Love won't wait forever this time
