

Sink in the Dirt

Robots in Disguise

Time to take a hit
But you try and you never
And you couldn't
Dying pay for life
What a swiz, what a price
This is living - and you wouldn't
Disappear here
Cross the line, cross the line
But you didn't
'cause you shouldn't
You're down on the ground
And you scream and you bite it
But it doesn't listen

You can sink in the dirt
To change the world
But you won't change the world

Cry to use your fists
But you try and you never
And you couldn't
Straining not to strike
Not to hit not to strike
'cause you wouldn't
Bound to take a dive
This is life, this is live
But it wasn't
You're down on the ground
And you scream and you bite it
But it doesn't listen

You can sink in the dirt
To change the world
But you won't change the world

Stop don't walk
It's a dark day
I'm giving out smiles
Look at the corners of my mouth
They're upturned, not down
Listen to our songs
We wanna give you butterflies
Listen to your heart beat strong
You're alive!

You can sink in the dirt
To change the world
But you won't change the world
