

# Because It's in the Music

Robyn

They wrote a song about us  
It's called something like stardust  
And on that day they released it  
Saying they'll release me  
Even though it kills me  
I still play it anyway

Because it's in the music  
Yeah, we were dancing to it  
I'm right back in that moment  
And it makes me want to cry  
Because it's in the music  
Heavenly bodies moving  
I'm right back in that moment  
And it makes me want to cry

It's time we heard it together  
You know I'll always remember  
I remember feeling like  
This is never gonna end  
Nothing lasts forever  
Not the sweet, not the bitter  
It's a tired old record  
I still play it anyway

Because it's in the music  
Yeah, we were dancing to it  
I'm right back in that moment  
And it makes me want to cry  
Because it's in the music  
Heavenly bodies moving, yeah  
I'm right back in that moment  
And it makes me want to cry

And I wonder when you hear it  
Are you getting that same feeling?  
Like you wanna break down in half  
I keep playing it anyway  
Anyway, anyway  
Anyway, yeah, oh oh oh  
I still play it anyway

Because it's in the music  
Yeah, we were dancing to it  
I'm right back in that moment  
And it makes me want to cry  
Because it's in the music  
Heavenly bodies moving, yeah  
I'm right back in that moment  
And it makes me want to cry
