

## Bumpy Ride

Robyn

Sometimes life can be a bumpy ride  
Sometimes it feels like  
You're drivin' with covered eyes  
And you listen to your friend who's in the car by your side

They say they've got your map what if your friends are  
Tellin' lies  
So listen to you heart 'cause you can't see no roadsigns  
You don't know where to stop or where to turn

Everyone goes through it I'm in the middle of mine  
And I try to remember it's the only way to learn  
Hold on (you've gotta hold on)  
Hold on (you've gotta hold on)

You gotta stay real true to yourself in the game Of  
Becomin' a woman where the rules never stay the same  
Remember who you are, who made you and who's keepin' you here  
Who's makin' you not duck for problems in fear?

People in your way, dogs and bitches Who's lickin' your ass?,  
Lairs and snitches  
Even though it's a bumpy ride  
Keep your head above the water line

Keep focused and you'll make it through  
Keep on rollin' is what you've got to do  
Even though it's a bumpy ride don't you slip and  
Don't you slide

Love will be there in the end when you come around that bend  
You've gotta keep your flow smooth, never hesitate  
Never stop believin' always keepin' the faith  
But always be critical never naive

'Cause if you can be that there's so much more you can achieve  
Maybe then when you're grown up satisfied and strong  
Maybe then you will be happy, happy that you held on
