

## Every Little Thing

Robyn

Been alone in here forever  
Waiting in the dark  
If you only knew me better  
Open up your heart  
Hey, every little thing I say  
Every little thing I do  
You should really know by now, baby  
Every little thing I say  
Every little thing I do  
You should really know by now, it's for you!

Been waiting here forever  
For you to come inside  
Even though I never told you  
God knows how I tried  
Hey, every little thing I say  
Every little thing I do  
You should really know by now, baby  
Every little thing I say  
Every little thing I do  
You should really know by now, it's for you!

Baby why you fought it,  
When you know I'm waiting  
When you know I'm waiting here

Baby why you fought it,  
When you know I'm waiting  
When you know I'm waiting here

Baby why you fought it,  
When you know I'm waiting  
When you know I'm waiting here

Baby why you fought it,  
When you know I'm waiting  
When you know I'm waiting here
