

# Honey

Robyn

Got you honey baby

Every colour and every shape  
All the swirly patterns they make  
It's like emeralds on the pavement  
But it's some kind of flower  
Sipping glitter and strings of saliva  
Won't you give me right where the hurt is  
And the heart of some kind of flower  
Sipping glitter and strings of saliva  
Won't you give me right where the hurt is

And the waves  
Come in the cold and  
I'm in the deep  
And Honey it's sweeter  
Oh and it's sweet baby

And the sun  
Sits on the water  
Down in the deep  
The current is stronger

And the waves  
Sits on the water  
Down in the deep, baby  
The current is stronger  
Oh, it's stronger

You're not gonna get what you need  
But baby I have what you want
