You and me together - Stars forever (4x)

You and me on the hood On my car Saturday night Watching the stars (2x)

You and I
Shinning lights to what we are
Look at the sky
And I am never far

I can be right there next to you No matter where in the world you are I got you right here next to me Forever connected through the stars

It's what we are...

You and me together - Stars forever (4x)

The last train's gone
We walk through the night
The moon shines down
Like a spotlight (2x)

You and I
Shinning lights to what we are
Look at the sky
And I am never far

I can be right there next to you No matter where in the world you are I got you right here next to me Forever connected through the stars

It's what we are...

You and me together - Stars forever (4x)

(It's what we are)

You and me together - Stars forever (4x)

I can be right there next to you I can be right there next to you Forever connected through the stars It's what we are

You and me together - Stars forever (4x)

We're superstars

You and me together - Stars forever (4x)

Stars forever
