

## Where Did Our Love Go

Robyn

Thoughts about you and me  
Thinkin' about what we used to be  
Love was strong so were we  
Until one day it all went wrong

A new body a new face  
But no one good enough to fill your empty space  
Baby where did our love go  
I'm thinkin' about you and me now  
Baby both you and I should know  
We should know by now  
Warming heat coolin' shade  
Whatever I needed I found in the love we made  
Maybe this was meant to be  
Miss and reminisce of something close to exctasy

But I still hope that you feel our love inside the way I do

Thoughts about you and me  
Thinkin' about what used to be
