

Christmas Is Calling

Roch Voisine

Christmas is calling me
Singing bright and merry
When are you coming home my friend
Oh, it's been kind for me
Friends and things to see
With deep sweet songs that never end
Here comes Christmas time again

Christmas is calling you
Out there alone and blue
When are you coming home again
Cause we've been loving you
God knows, we do
We don't mind the tears that wet your eyes
Christmas time will keep 'em dry

Sometimes merry, sometimes lonely
Sometimes cold in despair
Sometimes happy, sometimes holy
Sometimes no one who cares

Christmas is calling some
Hold your firing guns
Sing it out loud
To high command
Cause we've been losing sons
Ever since day one
Their blood ain't worth your promised land
Christmas wants to understand
