

# Don't Lose Your Faith In Me Now

Roch Voisine

You carried me through hard times  
Came to ease my pain  
I needed shelter from the rain  
Lately you've been looking  
Like you lost your only friend  
You've been there for me forever  
I'll be there for you in the end

So girl ...  
Don't lose your faith in me now  
I've only begun to see how  
I've made my mistakes  
But you showed me the way  
Don't lose your faith in me now

Time's the only healer  
You've taught me all too well  
And I'll always remember  
I know I'll live to tell  
That I have found an angel  
Sacred in my eyes and  
I need you to believe in me  
And stay by my side

So girl ...  
Don't lose your faith in me now  
I've only begun to see how  
I've made my mistakes  
But you showed me the way  
Don't lose your faith in me now

So turn around and close the door  
This ship has finally reached its shore  
There is no no need to say much more ...

So girl ....  
Don't lose your faith in me now  
Don't go breaking my heart  
After all we've come so far  
Darling I pray  
Don't lose your faith in me now
