

Life's A Beach

Roch Voisine

I've been dreaming
That my life was gonna change
And I've been thinking
Of the way to beat the strange
Cause the demons stop and stare
And I see them eveywhere
Everywhere

I've been craving
For the sun to soak my face
Forgetting
All those old familiar places
But I find it sometimes
Hard to wish upon a star
I don't need a haunted heart

Life's a beach
If you wanna live it up
Life's a beach
If you don't let it
Take you down
Life's a beach
I want my feet in the sand
I just hope you understand

I've been praying
For a better human race
But I've been broken
Trying to fix this place
So like a surfer on a wave
I will try to find my space
In the middle of this phase

Life's a beach
If you wanna live it up
Life's a beach
If you don't let it
Take you down
Life's a beach
I want my feet in the sand
I just hope you understand
I can be a better man
If only I could make a stand

Life's a beach
If you wanna live it up
Life's a beach
If you don't let it
Take you down
Life's a beach
I want my feet in the sand
I just hope you understand

Life's a beach
If you wanna live it up
Life's a beach
If you don't let it
Take you down
Life's a beach
I want my feet in the sand
I just hope you understand
