

# Love Never Dies

Roch Voisine

Won't you tell me where we go from here  
So many thoughts but none of them are clear  
We've always been each other's main support  
Was I to blame when you walked out the door?

You really never had much time to talk  
You took your morning coffee then you'd walk  
I guess you didn't like the family plan  
What part of love did you not understand?

Cause love never dies  
Not in my eyes  
So I hold on to hope  
Thinking you will come home

`Cause love never dies  
I've watched you sitting all alone at night  
But I was just a shadow by your side  
(Can you hear me? Can you hear me calling?)

Now I live my life just hoping for  
(Answer me, Please answer me)  
A chance to have you back once more  
(Baby please, Why don't you answer me please)

`Cause love never dies  
No not in my eyes  
So I hold on to hope  
Thinking you will come home

`Cause love never dies  
Love doesn't feel hard it can be  
To stand in the dark  
Trust in your heart

And love never dies  
After all this time I still believe  
Love will lead you right back here to me  
Look in your heart you will see

(Love never dies) Love never dies  
(Not in my eyes) No, no  
So I hold on to hope  
Thinking you will come home

`Cause love never dies  
(Love doesn't see) Love doesn't see  
How hard it can be  
To stand in the dark

And trust in your heart  
`Cause love never dies
