

She Had A Dream

Roch Voisine

She had a dream
Of walking in a park
With all the butterflies
With sunshine that made her cry
She had a dream
Of flying in the dark
And being the only light
She would shine, oh so bright

The wind would take her tiny tears away
And she would be the way
She wants herself to be
Her life would be a dream one day
And she would be free
True love would fly to her someday
With open arms, she'd kiss him tenderly
And they would walk to heaven
And I would pray
That he would be me

She had a dream
Of lying in the sand
So warm and believing
That life would never end
She had a dream
Of loving and sharing her heart away

The wind would take her tiny tears away
And she would be the way
She wants herself to be
Her life would be a dream one day
And she would be free
True love would fly to her someday
With open arms, she'd kiss him tenderly
And they would walk to heaven
And I would pray
That he would be me
. She had a dream
I wish it was for me
