

# Stay With Me

Roch Voisine

We're in love,  
And we're alone.  
The silence spoke,  
And told me so.  
Stuck in the middle  
Of a restless heart;  
No place else to go.

Feeling you.  
Overtime,  
I hear your thoughts  
Inside my mind,  
And I'd be crazy  
If I let you go.  
Darling you should know...  
I wanna love again.  
I wanna feel this way.  
Stay with me;  
I won't leave you, lonely.  
And let tomorrow come,  
We've only just begun.  
Stay with me,  
Oh, stay with me.

I'd been lost  
In no man's land,  
Till the day you took my hand,  
And led me gently  
To the other side.  
Now I understand.

I wanna love again.  
I wanna feel this way.  
Stay with me;  
I won't leave you, lonely.  
And let tomorrow come,  
We've only just begun.  
Stay with me,  
Oh, stay with me.  
Let love pass this way again...  
Love is the answer.  
The fever and the cure.  
It's burning inside of me,  
And darling, now I know for sure.

I wanna love again.  
I wanna feel this way.  
Stay with me;  
I won't leave you, lonely.  
Love is the key.  
Love is the key.  
Stay... Stay.  
I wanna love again.  
I wanna feel this way.  
Stay with me,  
Let love pass this way again.
