

There's No Easy Way

Roch Voisine

There's no easy way
To fix a broken heart
When you don't know how
Or where to start
Sometimes I miss you girl
I guess I always will
Cause when I think of you
My heart stands still
And there's no easy way
There's no easy way
There's no easy way
To say goodbye
Are you happy now
Is he good to you
Did your dreams come true
I hope you understand
I couldn't tell you then
But if it's not too late
Can we still be friends
'Cause ...
You know I tried a hundred times
To walk away from you
You know I shed a million tears
What else could I do
I never could explain
How I felt inside
And 'cause I didn't try
I never realized
That there's no easy way
There's no easy way
There's no easy way
To say goodbye
