Again

I've waited a long time To look into your eyes Again for the first time I know, yes, I know that

You'll come running back to me Maybe someday I do believe You'll come running back to me, I believe

Your heart is mine I've had it a long time Even through this time I know, yes, I know that

You'll come running back to me Maybe someday, I do believe You'll come running back to me, I believe

I speak to you in my head every night Making you up in my head I think I can make you understand again Maybe someday

I've waited a long time To look into your eyes Again for the first time I know, yes I know, that

You'll come running back to me Maybe someday I do believe You'll come running back to me, I believe

You'll come running to me, to me You'll come running to me, to me You'll come running back to me, I believe You'll come running to me, to me, to me
